50th Anniversary STEAM Fair
五十周年校慶STEAM 作品展

STEAM Fair is a grand showcase of students' brilliant work applying STEAM skills. The major showcase is the product prototype made from S3 Project-based learning. This year, S3 students participated in a STEM-focused social innovation program: the Schools Challenge – Smart City@Kowloon East co-organized by Junior Achievement Hong Kong (JAHK) and J.P.Morgan. The prototype made are innovative solutions that help transform Kowloon East into a pioneer smart city in Hong Kong.

Meanwhile, many Hioecians participated in various STEAM-related competitions. They will also exhibit their award-winning products and creative ideas that provide brightful insight to all of us. You are welcome to join the amazing journey to the future world!

STEAM作品展是一項大型展示活動，讓同學展示應用了STEAM技巧的學生作品。作品展主要展示中三同學於專題研習的作品原型。本年中三同學參與由青年成就香港部與摩根大通合辦的「智慧城市@九龍東」香港學生挑戰賽。學生透過參與創科研習活動，找出能以科學科技方法改善九龍東區內生活的創新解決方案。

此外，另設有丘中學生過往參與比賽的得獎作品，各項作品的新穎意念都提供了未來社會發展的方向，誠邀大家一起參與是次未來之旅！
